Boys' School Suits

"Just as good as tailor made," is what you hear from satisfied fathers and mothers who come to us to have their boys properly clothed. The making is more than half the value of suits subjected to rough usage. The first purchase here convinces the customer of the sense of this. We are showing some splendid values for \$2 and \$2.50, that ought to be double made of elegant mixed and plaid chevrons in fall weights and colorings. Remember YOUR money back if not satisfactory.

KILLED IN SELF DEFENSE.

Was Louis Barcus, of the Elk Fork, W. Va., Oil Field.

SISTERSVILLE, W. Va., Sept. 26.—Intelligence reached here yesterday afternoon of a shooting affray which took place out at Elk Fork Thursday evening, in which A. L. Walters, a young man employed on one of the oil farms out there, shot and instantly killed Louis Barcus, who attacked him.

It seems that Barcus had been drinking, and as he rode by the place where Walters was stopping, made some slighting remark, and when the latter told him to move on he got off his horse and went after him with a knife.

Walters tried to take the knife from the fellow and pacify him, but he only seemed to become more enraged and wanted to fight, and kept pushing Walters close with the knife. He followed Walters into the house, until finally the latter saw that he would have to do something and noticing a revolver lying on a bureau, picked it up and fired, hitting Barcus near the heart, killing him almost instantly.

When the coroner arrived to hold the inquest, Walters gave himself up, but later he was released, as it was shown conclusively that he was not to blame and had done the shooting in self defense.

FINAL INSTRUCTIONS.

Organization Completed for the Sabbath School Canvass of the Township.

Representatives of the various Sabbath Schools in Marietta city and township met at the chapel room of the First Congregational church Sunday afternoon and made final arrangements for the canvass of the township, which is to be made on September 30th. Each school represented was given a district to cover and the canvassers received their final instructions. The work will be watched with much interest.

A Big Sale.

Smith & McMullen, yesterday, sold a valuable piece of production in the Pleasant county field a short distance back of St. Marys to the National Oil Co. The property consists of the Cain farm lease of something over a hundred acres on which there are three producing wells, one drilling and one spudding. The last well drilled in on the farm has been making better than 50 barrels per day for several weeks. The price paid was \$20,000. It is understood that the option was given on the property before the last well came in at the above named price but when the well proved so good the owners wanted to "hedge" but the National people held them down as the lease looks to be very valuable.—Parkersburg Journal.

Professor Beery Leaves.

Professor Beery, the horse trainer who for two weeks delighted and instructed many large audiences in this city, gave his last exhibition on the Ice Harbor lot Saturday night. The audience was the largest that had greeted him during his stay here and was very enthusiastic over the performance. Prof. Beery has done the horse fraternity a vast amount of good and has made many unruly horses valuable to their owners. He will go to Parkersburg today, where he will give a series of exhibitions.

Released on Bond.

Marion Truax and Albert Flowers, of New Straitsville, who were arrested and brought to this city by Deputy Marshal W. T. Harness, were released on their own recognizance Saturday on advice of U. S. District Attorney Cleveland. The bond was fixed at \$500 for each and their hearing set for October 7th.

Big Well on Wilson Run.

The well on the Noel Cline farm, on Wilson Run, came in Saturday last a gusher. She started off at a 50 barrel an hour rate. Latest reports are that she is good for at least 150 barrels a day. This will no doubt open things up in full blast.—Newport Record.

Etna Furnace Sold.

FRONTON, OHIO, September 25.—The Aetna furnace, said to be the largest iron furnace in the United States, was sold today for \$80,000. The purchasers are Eastern men, representing the bondholders. There is no probability of the furnace resuming operations.

Fined for Assault.

Frank May was arraigned before the Mayor Saturday on the charge of assault and battery upon Walter Thompson at Mary Snyder's on Ohio street. He pleaded guilty and was fined five dollars and costs.

Fair of Weddings.

Two weddings which took place at the office of Squire R. E. Guyton last week were those of E. F. Meudenhall, of Belpre, and Rosa Hilderbrand, of Marietta, and E. W. Smith and Lucy Barnes, both of Bartlett.

Leg Broken.

Capt. C. W. Grimes, who lives near New Matamoras, was thrown from a buggy Friday night and received a broken leg. The injury was a very serious one and will lay him up for some time.

BOILER EXPLOSION

Results in the Serious Injury of a Workman.

A boiler explosion occurred in the Cornwallis field Friday afternoon, about four o'clock, which did considerable damage and resulted in the serious injury of a roustabout named Loan, whose home is in Pittsburgh. The explosion was at the South Penn Oil Co.'s No. 1 Griffin, which is being drilled by Frank Kiser, of Parkersburg. Owing to the telephone line being out of order between this city and Cornwallis, the particulars of the accident could not be learned.

CASCARETS stimulate liver, kidneys and bowels. Never sicken, weaken nor aripe.

Water Supply in Danger.

COLUMBUS, OHIO, September 25.—Investigation shows that the water supply of Columbus is in imminent danger of exhaustion. Not a drop of water is flowing in the bed of the Scioto River, from which all the water is taken, and the water which the city is now using comes from a little water held by a temporary dam built of sand bags.

Unless heavy rains come within a week it is feared that the city will go absolutely dry. The danger to be feared from this can only be estimated. The east side wells are the only ones from which the water is safe to use.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today! 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

OBSTACLES TO REFORM.

Even in a Little Matter Like This There is Difficulty.

A short time ago an order went into operation upon the Boston street railways requiring conductors to address feminine passengers as "Madame." The always cheerful Chatterer of the Boston Herald tells us that, in pursuance of the order, the conductor is trying very hard to cure himself of his habit of calling his feminine passengers "lady" and "Mrs. Lady," but he has not as yet hit upon a uniform method of addressing them, and, in his indecision, has resort to "hi," say, "missis" and "ma'am;" but he will doubtless settle upon the right thing eventually. The other day, on a Huntington avenue car, a conductor, who had evidently given much attention to the subject, won special distinction for himself by the use of the word "madame" in this regard. But there is no rose without a thorn. Among his passengers was a colored girl, who carried a large bundle, doubtless the week's wash of some patron. She asked him to stop at a certain street, and when the car arrived there he said to the gentle Afro-American: "This is your street, madame." She at once gave him an angry look, and said with marked asperity: "Who's yer callin' madame? Watcher mean by insultin' me? I'd have you know I'm a lady, I am." With which she hustled indignantly to the street. The conductor looked perplexed and as he rang the bell with a vicious jerk he sententious observed: "She ain't no lady, anyhow, even if she ain't a madame." It is hard to please everybody.

One Hundred Cases of Whisky Seized. PORT TOWNSEND, Wash., Sept. 24.—Four hours were spent here by customs officers in searching the steamship Williamette previous to her departure for Alaska. The search was rewarded by the discovery of 100 cases of whisky, which was seized. The steamer carried a full cargo of freight and 110 passengers.

Treasurer Randall's Shortage. WAYNESVILLE, O., Sept. 25.—Attorney Evans has taken the books of the late Township Treasurer Randall to Lebanon for expert investigation. Developments show that the shortage will reach nearly \$20,000, including money appropriated from private individuals.

Grave Robbers Caught. KENT, O., Sept. 25.—Ghouls attempted to rob a grave in the Ohio Cemetery in Streetsboro Township, at 3 o'clock Friday morning. Hunters from Kent caught them in the act and the men fled toward Cleveland. So far they have eluded capture.

EX-PRESIDENT GUZMAN BLANCO, of Venezuela, is said to be the richest man in the world, owning 6,000,000 square miles of land, 2,600,000 virtual slaves and enjoying an annual income of \$37,000,000.

Boy Drowned While Fishing. COLUMBUS, O., Sept. 25.—Oscar Meade, aged nine years, was drowned Friday at Minerva park. The boy was fishing on the bank and fell in.

James Young.

Who will appear at the Auditorium Wednesday night, is said to bear a striking resemblance to the late Lawrence Barrett. A notable feature of Mr. Young's character is his earnestness. During the time before he makes his appearance on the stage he sits apart and alone, contemplating his work, and thereby entirely loses his own identity in the one he is about to portray.
